EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Reich on 3/1/2006.

The application has been amended as follows:

Please replace the first paragraph of the specification (which was added by amendment on September 8, 2005) with the following paragraph:

--This application is a 371 of PCT/IB99/00740, filed 4/16/1999, which is a continuation of US Patent Application 09/060,756, now US Patent 6,183,957, filed 4/16/1998. --

2. The following is an examiner's statement of reasons for allowance: The claims are directed to specific fragments of SEQ ID NO: 1 with defined endpoints. The claims are allowable over the prior art because the prior art does not teach or suggest the claimed fragments of SEQ ID NO: 1.

The rejection made under 35 USC 102(a) over claims 53-56 as being anticipated by Cole et al; Nature, 1998, Vol 393, pages 537-544 is moot in view of the amendment to the specification regarding priority and the submission of an Application Data Sheet on 1/31/2006. A corrected filing receipt noting the priority in the instant application was mailed 2/13/2006.

Art Unit: 1634

The rejection made under Obviousness type double patenting over claims 9-11 and 13 of US Patent 6,183,957 is withdrawn in view of applicant's arguments made at page 10, line 14- page 11, line 20 of the response filed 1/31/2006.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
